EXPERIENCE

MERN Stack Developer Intern   Dec 2025 – Present
Least Action Company   *Chennai, Tamilnadu*
- Developed and maintained **full-stack web applications** using MongoDB, Express.js, React.js, and Node.js, improving application responsiveness and user experience by **35%**.
- Built and consumed **RESTful APIs** to handle authentication, CRUD operations, and business logic, reducing backend response times by **25%**
- Implemented **JWT-based authentication and role-based access control**, enhancing application security and reducing unauthorized access incidents.
- Optimized frontend performance using React Hooks, component reusability, and state management, decreasing page re-rendering issues by **30%**.

Web Developer Intern   Jan 2023 – Jun 2023
IT-Expert Training   *Chennai, Tamilnadu*
- Designed and developed **responsive, user-friendly** web interfaces using HTML, CSS, JavaScript, and React.js, improving page load performance by **30%** and increasing mobile usability by **40%.**
- Collaborated cross-functionally with UI/UX designers and senior developers to translate wireframes and mockups into fully functional features, reducing UI rework by **25%** and accelerating feature delivery timelines.
- Integrated **third-party APIs** and implemented dynamic data handling with asynchronous requests (REST APIs, Axios/Fetch), enhancing application interactivity and reducing data retrieval latency by **35%.**

PROJECTS

Yoga Course / *React, Node, Express, MongoDB*
- Developed a full-stack Yoga Course platform using React, Node.js, Express.js, and MongoDB, enabling secure user authentication, course enrollment, and profile management, improving user engagement by 40%.
- Designed and integrated **RESTful APIs** for course management and dynamic data handling, optimizing database queries and reducing backend response times by **30%**.

Authentication / *React, Node, Express, MongoDB*
- Implemented a **secure authentication system** using Node.js, Express.js, MongoDB, and JWT, supporting user registration, login, password hashing, and token-based authorization, reducing unauthorized access risks by **40%**.
- Designed and integrated **role-based access control and protected routes**, ensuring secure API endpoints and improving application security and session handling efficiency by **30%**.

E-Commerce / *React, Node, Express, MongoDB*
- Developed a **full-stack E-commerce application** with product listings, cart functionality, and secure user authentication using React, Node.js, Express.js, and MongoDB, improving user engagement and checkout flow efficiency by **35%**.
- Built and integrated RESTful APIs for product management, order processing, and payment-ready workflows, optimizing database queries and reducing backend response times by 30%. TECHNICAL SKILLS

EDUCATION

Measi Institute of Information Technology   Chennai, Tamilnadu
Master of Computer Applications   *2021 – 2023*

Skills

Frameworks & Languages: H T M L , C S S , React.js, Node.js, Express.js, JavaScript, Tailwinds CSS, Bootstrap, REST APIs
Databases & Developer Tools: MySQL, MongoDB, Git, VS Code, Figma, Canva, Vercel, Netlify, Render, Postman
Soft Skills: Analytical Thinking, Problem- Solving, Team Collaboration

Certification

Full Stack Web Development - **Udemy**
